AUTISM ASSESSMENT SERVICE

Information for Everyone

Why Choose Us?

- 1) When it comes to autism assessments, choosing the right professionals is important. Our practice prides itself on its accuracy and client-centred approach.
- 2) We aim to understand our clients as a whole, taking into account strengths, challenges, and unique personality traits. We understand that autism may not be the only answer. For this reason we also offer other comprehensive assessments for differential diagnosis.
- 3) We run a statewide service with limited wait times for appointments to ensure you receive the best service as fast as possible.
- 4) We can also provide access to speech pathologists, occupational therapists, and other relevant resources. Please contact our team to discuss these options further.

The Assessment Process

Our autism assessment process is designed to be thorough and personalised.

We understand that seeking an assessment can be an emotional journey, and we are here to listen and provide you with guidance throughout the process.

We begin with an initial consultation to discuss your concerns, experiences, and goals. The assessment itself involves a combination of clinical interviews, standardised tests, and behavioural observations.

We also collaborate with parents, caregivers, and teachers to gain a comprehensive understanding of the individual's behaviour and development across different settings.

Fees / Costs

Due to the wide range of services available, autism assessment fees can vary depending on your referral pathway. The best way to learn about these is to contact us via phone on (03) 6431 8411.

Confidentiality

At our psychology practice, confidentiality and professionalism are paramount. We understand the sensitive nature of autism assessments, and handle all information with care and respect. You can trust that your privacy is safeguarded throughout the assessment process.
